SUMMARY

I aim to obtain a role as a fresher software developer in a respected organization as a fresh graduate, enabling me to apply my technical expertise and knowledge towards the achievement of the company's goals. My objective is to contribute to the overall success of the organization by utilizing my skills effectively and efficiently.

SKILLS

- **Programming Languages:** Javascript, HTML, CSS
- **Frameworks:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Databases:** MongoDB
- **Tools:** Git, Visual Studio Code, Postman

PERSONAL SKILLS

- Quick learner
- Adaptable

EDUCATION

- | | |
|---|-------------------|
| • BCA S. S. Jain Subodh P. G. College, Jaipur | 87.7% 2020-2023 |
| • 12th (CBSE) Tagore International School, Jaipur | 74.8% 2019-2020 |

PROJECTS

- **Text-App Web Development Project**
A web application using Next.js framework that uses OCR technology to extract text from images and converts it to editable text. Additionally, the app uses speech recognition to allow users to dictate text. The project involved integrating multiple APIs and building a user-friendly interface for seamless functionality.
- **Keeper-App Web Development Project**
Keeper-app is a web application using React.js framework to store and manage notes. Implemented responsive design and utilized various React.js components for optimal user experience.
- **Blog Website**
This web development project is a blog website with a database built using Node.js and Express.js on the backend. It allows users to compose and publish their blogs while providing an easy-to-use platform for showcasing their content.

CERTIFICATION
